

Editing in Math Lab

The following steps outline how to update your Moodle course:

1. Always ensure editing is turned on by clicking the 'gear' icon located below your user name then click **Turn editing on**.

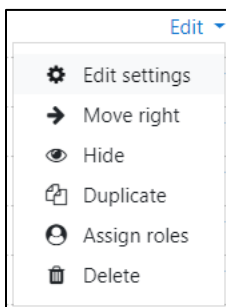

2. Each section will have an edit button located on the right side of the screen, when you click **Edit**.

Click **Edit section** to update the title and description, click **Highlight** to show emphasis, click **Hide section** to hide it from students and **Delete section** to delete it and its contents.

3. Each activity and resource will have an edit button located on the right side of the screen, when you click **Edit**.

Click **Edit settings** to update the title and the activities settings, click **Move right** to indent it, click **Hide** to hide it from students, click **Duplicate** to create a copy, click **Assign roles** to locally change a user's role for this activity and **Delete** to delete it.

More information about activities and their settings is found at:
